**FOLEY-KIDNEY PILLS**  
FOR RHEUMATISM, KIDNEYS AND BLADDER

Harry James of the Carson Shoe Factory, who has been unwell for some time and departed for San Francisco a few days ago to see a specialist, was operated upon in Lane's Hospital Saturday for appendicitis. Mr. James rallied from the operation in good shape and is getting along as well as could be expected. His many friends hope he will return shortly in better health than ever.—Carson Appeal.

## The Best Cough Medicine

"I have used Chamberlain's Cough Remedy ever since I have been keeping house," says L. C. Hames, of Marbury, Ala. "I consider it one of the best remedies I have ever used. My children have all taken it and it works like a charm. For colds and whooping cough it is excellent." For sale by all druggists. Adv.

Just received at Oley Haugner's shoe store, a new shipment of riding boots made to special order. They are of medium and light weight, high heels with brass plate. Just the thing for cowboys.

When Burton Holmes recently gave his celebrated travelogue on "Panama" at Orchestra Hall, Chicago, he was seriously interrupted by continual coughing of the audience. No one annoys willingly and if people with coughs, colds, hoarseness and tickling in the throat would use Foley's Honey & Tar Compound, they could quickly cure their coughs and colds and avoid this annoyance. ## QUESTION OF MONEY

About the next big bill that is to be considered is the Sullivan measure providing for the loaning of idle funds in the state treasury to state banks. It is estimated that something like \$15,000 will revert to the state government from this class of loans. At the same time it will in no way hinder the state from buying good bonds when deemed necessary.

It is such legislation as this that counts in Nevada at the present session. There is no excuse for idle money being in the treasury when there is a demand for it in the growing communities of the state. While the Sullivan measure is a new theme to the average Nevadan it is along the lines of progress such as has been tried and found O.K. in other states and communities.

## GOOD ROADS ARE SURE TO HELP TRADE.

To no one more than the business man is the question of good roads a vital issue. The spreading of the doctrine of good roads will mean a large increase in the volume of business, will lead to great leaps in the development of this already rich country and will make money for every man in mercantile lines. While directly the building of good roads will benefit the farmers and stock raisers perhaps more than any one else and will raise the value of every farm reached by good roads, still the business men come in a close second.

Good roads will increase the productivity of the land because it will give the farmers a better outlet for their marketable stuff and will lead to such an increase in population that there will be more workers per square mile than there are under the old roads system. Good roads will open for settlement and cultivation land now lying out of the radius of profitable farming. It will put more square miles of territory within trade distance of your town.

The business men of any town are interested in bringing to that town trade from greater distances than is easily covered on our present roads. It increases the volume of business, and every man in business in the community receives his share of the benefit. The farmer is able to haul his grain and produce to market at less cost and makes a greater profit per year from his labor. This additional profit is represented by the additional amount of cash he has to spend with the home dealers. When the farms are made to pay larger dividends more settlers will come to your neighborhood, and all of them will have to spend money with you and your fellow business men. So, directly and indirectly, the business men are benefited by the building of good roads.

Mrs. S. S. S., Van Buren St., Kingston, N. Y. (full name furnished upon application) had such decided benefit from using Foley's Honey and Tar Compound that she shares her good fortune with others. She writes: "Foley's Honey & Tar Compound brought back my voice to me during a severe case of bronchitis and laryngitis. Oh, how many people I have recommended it to." Gardnerville Drug Store. adv.

## Old Age

Old age as it comes in the orderly process of nature is a beautiful and majestic thing. It stands for experience, knowledge, wisdom, counsel. That is old age as it should be, but old age as it often is means poor digestion, torpid bowels, a sluggish liver and a general feeling of ill health, despondency and misery. This in almost every instance is wholly unnecessary. One of Chamberlain's Tablets taken immediately after supper will improve the digestion, tone up the liver and regulate the bowels. That feeling of despondency will give way to one of hope and good cheer. For sale by all druggists. Adv.

While there are many of automobiles which may cost more or less than the Jackson, do not place your order for a machine before you investigate the Jackson features, because the Jackson is so easy riding and the upkeep and the running expense is so remarkably small, that it is really the cheapest car in the long run, to say nothing about the bother and trouble one would experience with many other makes and with a car of lower first cost. The Jackson is as beautiful as it is durable, it has a powerful, smooth and silent running engine, which is equal to any emergency. If you appreciate quality and an easy riding Machine, and one which you can handle easily and maintain cheaply look up the Jackson line. Four and six cylinder machines—a machine for every purpose. Electric self-starter and lights. All are fully equipped, for the road.

Comfort a certainty

Jackson engineers design for comfort, considering it fully as important as safety, power and beauty of design.
